Call of Duty 4 Modern Warfare.Q: Finding first word after a certain word in a sentence (Python 3.x) I have been trying to figure out how to find the first word after "god" in a sentence. I have not yet learned how to use dictionaries and am completely stumped. Basically I have a very lengthy sentence that can be broken up into "god", the new sentence, and then the next "god" again. How can I take the second "god" and pull out the first word (or word) after that? Thanks! A: You could use the re.split() function to split the entire string by the space and then access the first value from the resulting list - word = re.split(' god', s) print(word[0]) Demo - >>> s = "I am just saying that " 6d1f23a050
